

COMPLIANCE MANAGEMENT

Compliance Management is a serious matter to fleet operators. Without complete compliance your company is at risk and the public at large is at risk. Being a transportation professional or a company executive, you know compliance is vitally important but compliance can be time consuming, complicated and filled with pitfalls. Just keeping up with new regulations is a never-ending task.

Transervice provides:

- ❖ Complete management of compliance requirements relating to fleets, equipment, drivers, operating supplies and maintenance technicians.
- ❖ DOT, OSHA and EPA Compliance Certifications, local and state regulations compliance as applicable to fleet operations, facility inspections and recycling of fluids, materials and other waste items generated at maintenance facilities.
- ❖ Proven expertise from our in-house staff of Compliance Professionals to effectively handle the ever growing task of Compliance Paperwork and Regulations.
- ❖ Significant, almost 100%, elimination of your time involvement with Compliance. In most cases Compliance Work performed by Transervice occurs behind the scenes.

SAFETY PROGRAMS

Transervice considers safety to be of vital importance and key to being a responsible and good corporate citizen. We take the safety of our employees, our customers' employees and the public very seriously. Everywhere we operate whether it is on the road or in maintenance facilities we are committed to preventing accidents, eliminating risk and operating safely.

Here's how:

- ❖ We maintain an in-house safety staff and operate a **Transervice Safety Training Institute**. Transervice is a Registered Public Training Agency of The National Safety Council's Driver Improvement Program.
- ❖ We have our own National Safety Council Certified Defensive Driving Instructors; this staff makes sure that the drivers we employ operate equipment safely as well as safeguard your cargo from road accident damage.
- ❖ From operating safe Dedicated Maintenance Facilities to the safety of every Commercial Driver safeguarding your loads, we are experts in transportation safety.
- ❖ We support our safety commitments with professional management, documented procedures and systems for loss control and incident tracking.
- ❖ Below are some of the ways Transervice protects its fleet operations:
 - We conduct semi-annual Inspections to Defined Standards, covering all aspects of Loss Control and Compliance.
 - We operate with Defined Safety Standards for All Employees, with Daily Observations,

Reporting and Abatement of Hazards by Technicians, Commercial Drivers, Administrators, Dispatchers and Managers.

- We endorse Safety Recognition and Reward Programs that drive Measurably Better Results.
- We engage in Extensive Safety Training for all employees.
- We maintain centralized DOT, OSHA, and EPA records keeping with audit requirements while ensuring Compliance.
- We consider safety when conducting Performance Appraisals and Performance Improvement Processes.
- We understand and comply with all HAZMAT regulations applicable to Transervice operations including alliance with Nationwide Spill Response teams.
